

Environment is anything we see, hear, breath, smell and feel. Environment cannot be separated to "mine" and "yours". **Respecting the environment is everybody's obligation.**

**Blue & Green** is the environmental program of **Thalassa Beach Resort**. A program, live as the environment: Based on basic rules but always improving always updating. It exists to remind us the balance between high quality services and respect to the environment.

The goal of Blue & Green program is a **cleaner environment**. This can be achieved by the following steps:

Minimization of the consumptions of all forms of energy & material

+

Use of alternative forms of energy

+

Recycle of material and waste

=

Minimization of waste production

=

Cleaner Environment

In the **Blue & Green** booklet we list what we at **Thalassa Beach Resort** do to achieve this

goal. We also advise our guests how they can help on this during their stay with us and how everyone can help for a cleaner environment through everyday actions.
